

OPERATING BUDGET INTRODUCTION

The City's annual budget consists of four sections:

Section I – Section one consists of an overview of the City's major and minor funds. The City's major funds included the General and Utility Funds. The remaining funds are considered minor funds due to their scope.

Section II – Section two contains the individual line items and associated numeric projections for the fourteen funds used to manage the city's daily operations.

Section III – Section three is a detailed cash flow projection for the Operating Budget of the City. The cash flow projection groups minor funds while segregating the major funds.

Section IV – Section four contains the amounts required to be appropriated for the Operating Budget.

Appendix – Section includes supplemental illustrations

Major and Minor Fund Classifications

The City has two major funds. Both major funds will be discussed in "*Section I*". Prior to fiscal year 2017 the City had three major funds. The City merged the Electric Light and Water and Sewer Funds into the Utility Fund effective 05/01/2016. Merging the funds allows for the City to balance spending between the utilities to offer the best service to its citizens.

The minor funds for the City include the following: Police Drug Enforcement Fund, Impound & Equipment Fund, Insurance Fund, Garbage Fund, Illinois Valley Regional Airport Enterprise Fund, Motor Fuel Tax Fund, Recreation Fund, Police Pension Fund, Firefighters Pension Trust Fund, Landfill Fund, and TIF Funds. Changes in the disbursement structure for Emergency Phone System revenues eliminates the need for the City to host it as a separate fund. Those funds will now be administrated by Illinois Valley Regional Dispatch. Starting in January of 2018, the City switched to a self-insurance plan for employee medical benefits. The switch created a need for a separate Insurance Fund to properly administer the funds.

Section II uses financial information that is unaudited in the year-to-date column. The information will be audited as part of the fiscal year 2019 audit. The information in the year-to-date column is considered current data for the period 05/01/2018 through 02/28/2019.

SECTION 1 – FINANCIAL SUMMARY

General Fund

The City's General Fund is essential to provide basic services to citizens. The health of the General Fund provides the primary benchmark used by credit analysis agencies, debt holders, and other governmental bodies. The General Fund reserve increased 11% in fiscal year 2019 and now includes 135 days of operating expenses.

General Fund revenues are primarily generated from use taxes. The City's major use taxes are sales tax and home rule sales tax. Combined the two generate 65% of the City's projected fiscal year 2020 revenue. Half of the home rule sales tax is dedicated to the City's obligation in the construction bond of Parkside School. The remaining General Fund revenues are from the City's share of the State of Illinois Income Tax, a 4% share of electricity sales (for administrative services completed by the General Fund departments), and various small revenues categorized as other income.

Budgeted revenues for the General Fund in fiscal year 2020 are \$15,828,510:

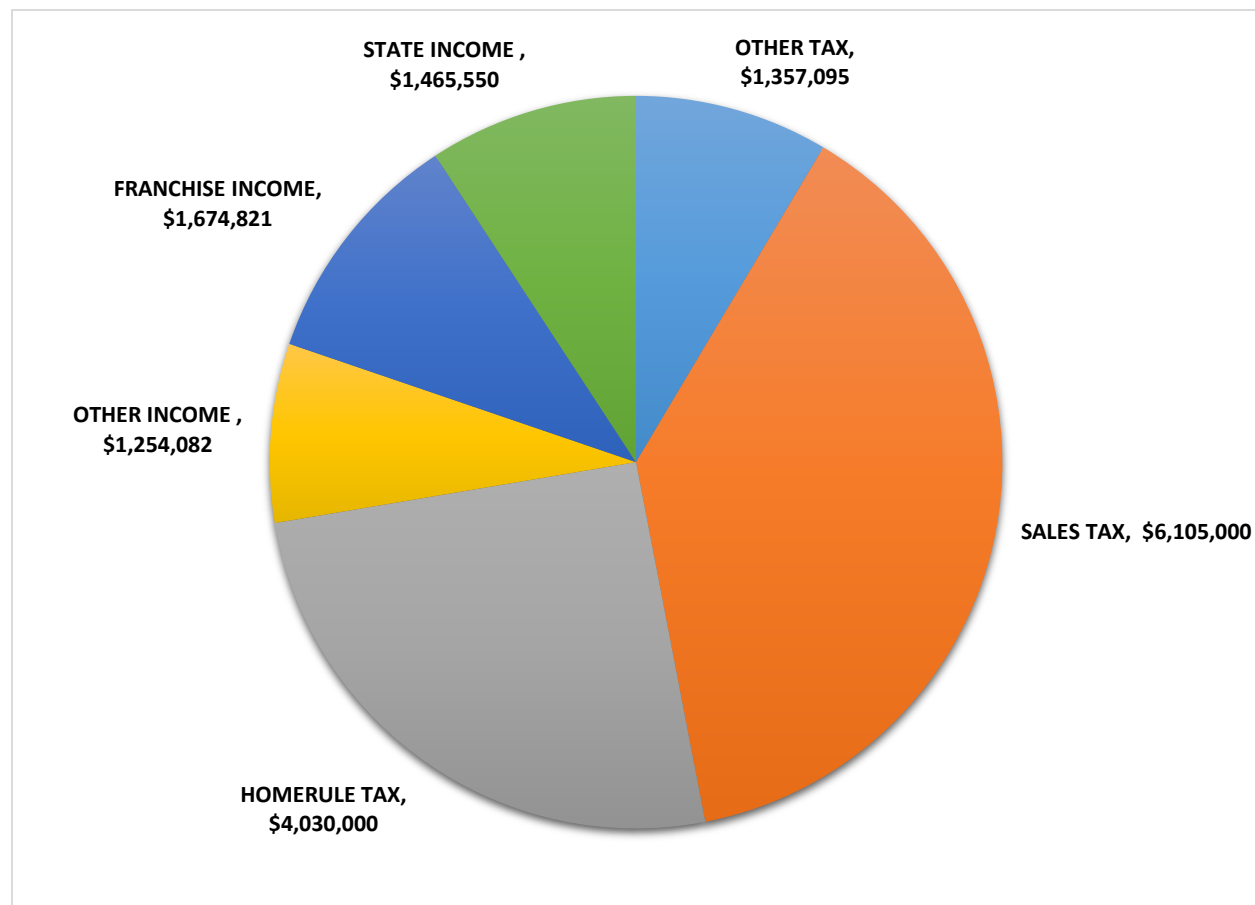

Figure 1 General Fund Revenue

The City does not plan to issue any debt in fiscal year 2020 and has not issued new debt since fiscal year 2013. The City levies property taxes annually, however the levy is not used for any General Fund costs. The use of levied funds will be covered later.

SECTION 1 – FINANCIAL SUMMARY (CONTINUED)

General Fund expenditures are expected to grow due to increasing contributions to pensions, continued investment into infrastructure, and normal operating increases.

The city demolished several older buildings in fiscal year 2019. Property demolition totaled \$265k in fiscal year 2019. The city also invested over \$1.2m in the annual street program. Additionally, the City invested over \$200,000 in other capital improvement throughout the community. A 2.75m investment into North Peoria Street and Unytite Drive highlight the fiscal year 2020 capital investments.

Total Governmental Funds infrastructure investment is expected to be \$3,085,000

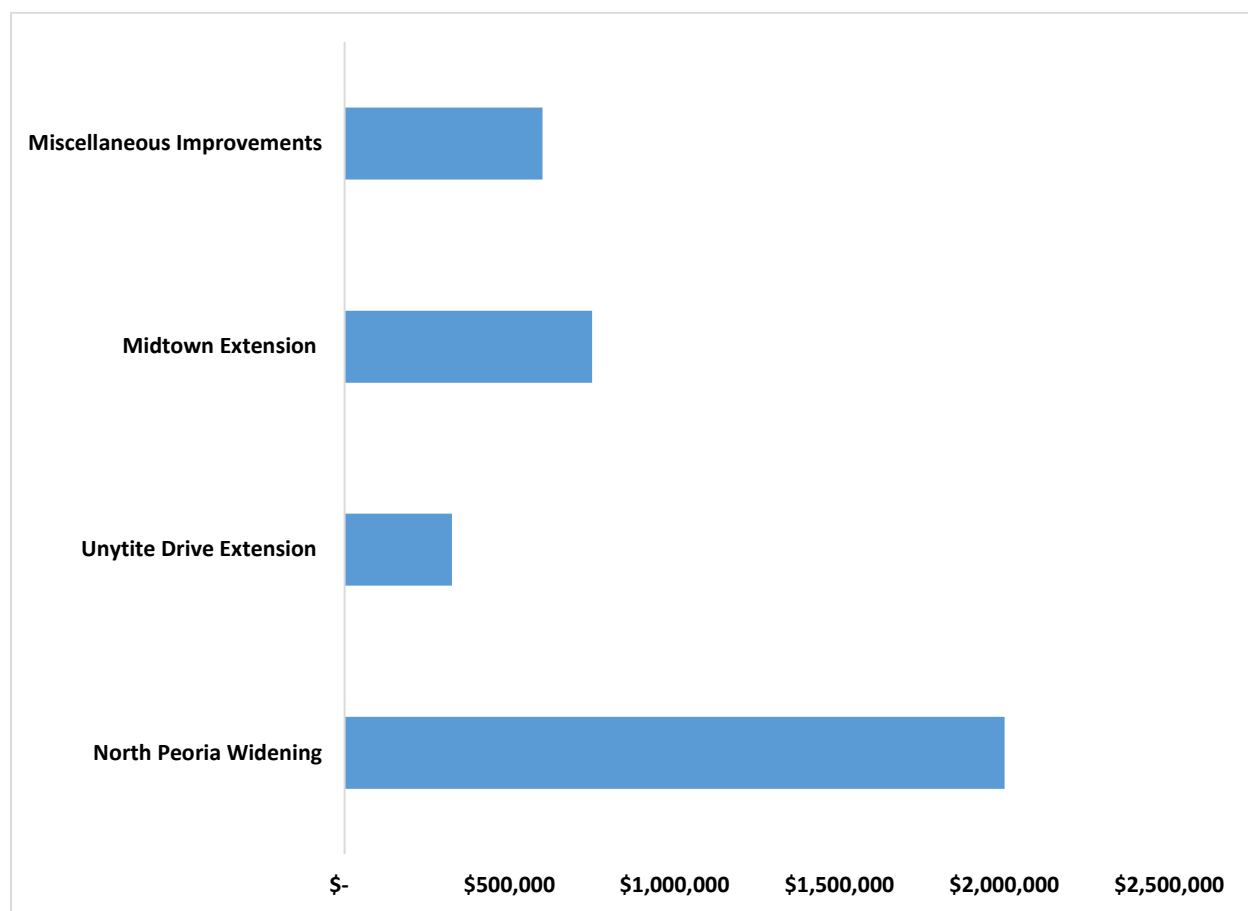

Figure 2 Governmental Funds Infrastructure Improvements

Pension liabilities continue to rise throughout local governments. The City's employees are members in three different pensions: Illinois Municipal Retirement Fund, Policeman's Pension, and Firefighters' Pension. The Illinois Municipal Retirement Fund (IMRF) is funded each payroll by an actuarially determined rate. The Policemen and Firefighters Pensions' are funded from monthly contributions set fiscally and its citizens' property taxes. The General Fund is expected to transfer \$875,000 and \$135,750

to the policeman and firefighter pensions respectively. As stated previously, property taxes levied upon citizens is not used for daily operational purposes of the City. In fiscal year 2020, 100% of the City's levy will be transferred to the policemen and firefighters' pensions. The property tax transfer is expected to be 670,845 and \$75,711 to the policemen and firefighters' pension respectively.

Figure 3 Pension Contribution Summary

The City has made great strides in isolating the funding needed to contribute to its pensions. Annually, the City contributes larger amounts than the actuarial reports suggested by the State of Illinois. The Illinois Department of Insurance report uses various assumptions to calculate suggested contribution rates. The City has also contracted with a third-party actuary to use strict assumptions to help curtail a City specific plan for the pension funding.

SECTION 1 – FINANCIAL SUMMARY (CONTINUED)

Budgeted expenditures for the General Fund in fiscal year 2020 are \$15,757,311:

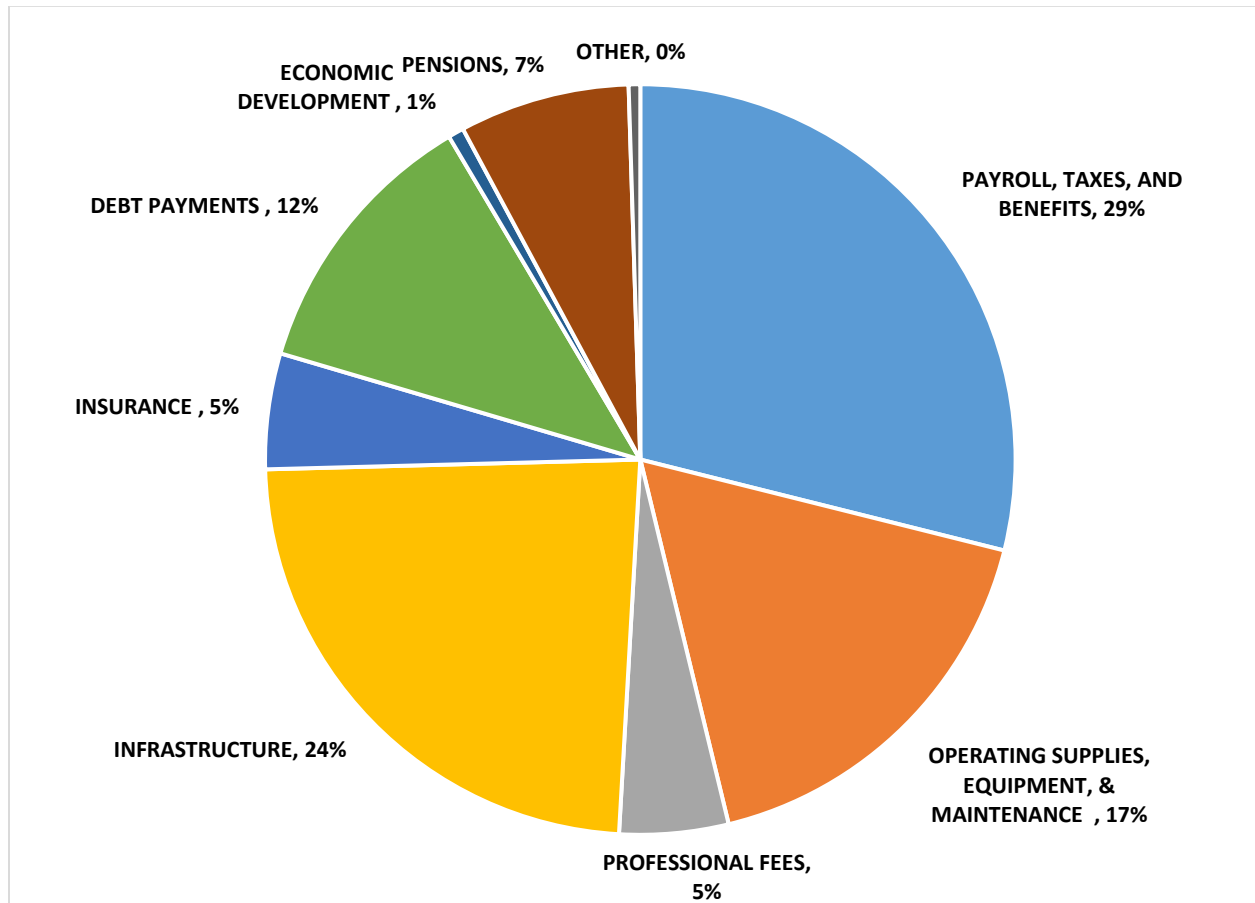

Figure 4 General Expenditures

Utility Fund

Utility Fund revenues are driven by electricity, water, and sewer sales. Revenue from utility sales fund all costs that are needed to run the utilities. Other revenues make-up less than 2% of the remaining income. Electric rates are expected to remain consistent with prior year, however the water and sewer rates raise 3% annually to offset the federally mandated sewer separation expenses. Demand in the utility should be steady as population and large users remain consistent.

Total budgeted revenues for the Utility Fund are \$33,107,273.

SECTION 1 – FINANCIAL SUMMARY (CONTINUED)

Expenditures of the Utility Fund fluctuate with the cost of electricity and the need for capital improvements. The electric rates for the upcoming year are expected to be consistent in comparison to prior year. The fiscal year 2020 budget for the Utility Fund includes several capital improvement projects:

Figure 5 Utility Infrastructure Investments

The sewer separation project will be the largest capital project at \$1,700,000. The separation project is part of a twenty-year plan, concluding in 2029, that separates storm and sanitary sewers. The City has already invested \$15 million into the separation and has \$15 million remaining.

Water main upgrades will be another large capital project in fiscal year 2020. The City continues to work on grant funding to complete a larger water main project that will help allocate resources to other capital needs.

Fiscal year 2020 is year 3 of a 5-year transition to smart utility metering. Year 3 will allow for another \$750,000 to be invested in metering upgrades. Smart metering will allow for residents and commercial utility users to have increased utility services. Users will be able to remotely have their services turned on and to be notified of issues causing their utility bill to increase.

SECTION 1 – FINANCIAL SUMMARY (CONTINUED)

Total budgeted expenditures for the Utility Fund are \$29,673,905. Total cash outflow is estimated at \$32,828,020 with the difference being capitalized assets less depreciation expense.

Figure 6 Utility Fund Expenditures (Accrual Method)

Landfill Fund

The City owns and operated a landfill south of the Illinois River. The landfill is now closed and is undergoing closure procedures. Due to the environmental impact of a landfill, the City is required to follow EPA standards to properly close the facility. The closure costs were estimated by an engineering firm back when the facility closed operations. A liability was booked for the estimated expenses. Currently, the landfill is still in the closure process.

Most landfill revenues are generated from monthly assessment charges. The revenue is restricted for the cost of closing the landfill. The Landfill's total budgeted revenue for fiscal year 2020 are \$73,050.

Landfill expenditures include soil sample analysis contracts, engineering, and other minor operational expenses. Total budgeted expenditures for fiscal year 2020 are \$62,420.

SECTION 1 – FINANCIAL SUMMARY (CONTINUED)

Airport Fund

The City owns a two-runway airport on the northwest perimeter of town. The airport serves local pilots, commercial businesses, and emergency entities. Large infrastructure projects for the airport are largely funded through the Department of Aeronautics at the State and Federal levels.

The airport revenues are from various sources. The primary sources of revenue are hangar rentals and renting excess land to local farmers. When large infrastructure projects receive grant funding, the grantor pays the contractor directly therefore it is not a cash inflow to the City. Total budgeted revenue for fiscal year 2020 is \$141,000.

The largest expenditure for the airport is depreciation. The large infrastructure additions are depreciated over the life of the asset. Depreciation is not a cash outflow. Grants received are recognized in the year received while depreciation for the new assets is expended over the useful life. Repairs and maintenance to the airport make up most of the remaining expenditures. Total expenditures for fiscal 2020 are \$700,100.

Police and Fire Pension Fund

Across many local and state governments a common issue is Police and Fire pension funding. The City is focused on contributing to both pensions and increasing the funding ratios. The City's entire property tax levy goes towards funding the pensions. The City's ability to fund daily operations, infrastructure improvements, and debt retirement with "use tax" revenues allows for property tax levy revenues to be dedicated to the pension funds.

Most of the revenue for the City's pension funds are received from general fund transfers. General Fund transfers are made monthly to the pension fund and calculated at 1/12 of the annual budget. The remaining revenues are from property tax, member contributions, and investment income. The property tax income received is from the previous calendar year levy. Member contributions are at set rates and are contributed each payroll.

Pension benefits paid, and administrative fees are the primary expenditures of the pension funds. The expenditures fluctuate with the number of retired employees. The administrative fees are fixed annually.

SECTION 1A- PROPERTY TAX SUPPLEMENT

The City has \$253,358,351 in non-exempt taxable property value. The assessed value has increased the last four valuations and is expected to remain consistent going forward.

Property tax bills are inclusive of all taxing bodies related to the taxpayer's parcel. A common misconception is that a raise in the tax rate levied by the City is the percent increase to the total bill. An increase or decrease would be proportionate to the prior year rate of the respective taxing body. The City is proud to keep property tax rates low for its citizens. The City collects 4% of the overall property tax bill. The City's share of every property tax dollar spent is \$0.04:

Of the monies collected by the City, 90% is given to the Police Pension Fund and 10% to the Fire Pension Fund.

SUBJECT: Water and Sewer Acreage and Impact Fee

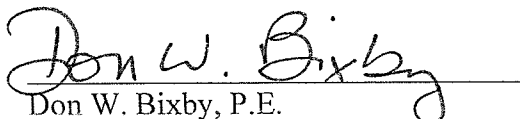

Dear Scott:

The City of Peru Water and Sewer Acreage and Impact Fee, which was adopted by the City Council in May 2007, includes a requirement to escalate the assessment and front footage fees in accordance with a construction cost index published periodically in the publication, *Engineering News Record*. I am enclosing a spreadsheet in which I have calculated the appropriate escalation to be effective May 1, 2021, based upon the latest published index prior to May 1st. The bolded line represents the appropriate information for the current year. I have also included a copy of the page which includes the pertinent index.

If you have any questions regarding this, please don't hesitate to contact me.

Sincerely,

CHAMLIN & ASSOCIATES, INC.

Don W. Bixby, P.E.
